

Bold Advantages

Job bank, mentoring and *professional* opportunities

Whether you are looking for a job or want to share a professional project, Elisava Alumni's web platform offers you:

A Job Bank where offers related to the disciplines taught at the School are published on a regular basis. These offers are published by small studios or SMEs to large multinationals and institutions.

In addition, Elisava Alumni carries out actions with companies that seek to attract talent to the School, as well as activities specifically focused on supporting our graduates to develop their job search skills. These actions are usually open in nature but Alumni Bolds always have preference.

Elisava Alumni's mentoring program consists of contacting a junior student and an experienced student so that the latter accompanies the former to identify obstacles and possible solutions, opportunities, etc. in their professional development.

Access to the School's *facilities*

USE OF THE MODEL AND PROTOTYPE WORKSHOP

You can use the Prototype Workshop of Elisava to develop your projects. From the digital manufacturing services, you have access to the laser cutter machine for one hour a week and 3D printing paying a fee per tray / printing (€ 50 that you must pay to the School Administration Department). The CNC milling machine is exclusively for students.

To enjoy these services it is essential that you send an email to alumni@elisava.net to be registered in the system and you can access the Workshop. If you have any questions about the use of the services, you can contact the workshop directly by sending an email to taller@elisava.net. Click this link to reserve the laser cutting machine <http://reserves.elisava.net/>

LOAN IN THE ENRIC BRICALL LIBRARY

The Elisava Library is one of the broadest documentation collections in our country in terms of design. As Alumni you can check the collection, but if you are Alumni Bold you can borrow the documents that interest you and you will also be able to access the digital library.

ACCESS TO ELISAVA COMPUTERS WITH SPECIALISED PROGRAMMES

The School has eleven computer rooms equipped with more than 100 MAC and 175 PCs with the specific software to develop design and engineering projects. If you are Alumni Bold, you will have a user account to work on the School's premises. You must request the user and the access code to the computers in alumni@elisava.net.

PHOTOGRAPHY SET

Elisava has a photography studio equipped with a camera and lighting so you can give your projects live. To reserve the photography set it is essential to call Elisava at 933 174 715 and contact MediaLab.

These advantages will be communicated via mail as they are specified.

MARKETING OF PRODUCTS IN LA CAPELL

ELISAVA and La Capell have an agreement whereby the students and Alumni Bold of Elisava can market their products in the store of the Col·legi d'Arquitectes de Catalunya, as long as they meet the legal, quality and minimum stock requirements in order to be able to perform the sale. The selection of products is made through an annual contest organised by Elisava Alumni.

ELISAVA ENTREPRENEURS PROGRAMME AND ELISAVA ALUMNI INCUBATOR

This is a specific programme that works to support those alumni who want to carry out innovative, solvent and viable business projects. This is how the Elisava Alumni Incubator was born, located inside the Almogàvers Incubator of Barcelona Activa. Every year, we launch a call to select the projects that will be part of this initiative and which will have at their disposal a space to develop their activity; always with the support of Elisava and the technical support of Barcelona Activa.
